

ETEXT ATTACHMENT

03/11/2005 12 : 38

In response to your letter dated February 9, 2005 please note that the Committee will file an amended 30 Day Post-General Report today to include the missing due date on Schedule C and the missing information on Schedule C-1. In addition, Schedule E has been amended to provide the missing election designations for those independent expenditures where that information was not provided.

You have asked the Committee to clarify four purposes used for itemized disbursements on Schedule B supporting line 21(b). "Mailing Services" are related to the production and mailing of Committee communications. "Phone Banks" are related to Committee communications with specific program donors to the Committee. "Postage" is related to the amount paid for mailing those Committee communications. "Printing" also relates to the Communications and general office needs of the Committee. None of these expenditures were made on behalf of any specific candidate.

You have asked the Committee to provide original loan documents. The Committee has an existing Line of Credit that has been renewed and those renewal documents have been submitted. The original documents establishing the Line has also been submitted. We will submit the line extension for the period in question again along with the original signatures needed on the Schedule C-1. These documents will be delivered to the Commission today.

Please contact me if you have any further questions.
